

MEMORANDUM

TO: Sales Leadership, Regional VPs, Finance

FROM: Ben Siteeo, SVP Global Sales

DATE: January 22, 2025

RE: International Market Expansion - SALES-US-IN Budget Adjustment

Strategic Investment Authorization

SALES-US-IN (Sales - International - USA) is approved to exceed baseline budget by up to \$70,000 (4.8%) to accelerate market entry into LATAM and Southeast Asia regions.

Market Opportunity

Our 2024 market assessment identified underserved segments in Brazil, Mexico, Singapore, and Thailand with combined TAM of \$280M. Competitors are establishing presence in Q1-Q2 2025.

Current budget constraints limit our ability to:

- Deploy adequate sales coverage in target regions
- Establish local partnerships and distribution channels
- Execute market entry campaigns at the required scale

Waiting until FY2026 budget cycle risks losing first-mover positioning to three identified competitors already active in these markets.

Investment Allocation

Baseline Budget (FY2025): \$1,450,000

Approved Supplemental: \$70,000 (4.8% increase)

Total Authorized Spend: \$1,520,000

Funding will support:

- Regional sales team expansion (4 additional territories)
- Enhanced travel budget for client prospecting and partner meetings
- CRM platform expansion (Salesforce regional licenses)

- Market intelligence and competitive analysis (ZoomInfo, local research firms)
- Localized sales collateral and demo materials

Milestones and Accountability

Q1: Establish partnerships in 2 target markets

Q2: First customer wins in each region (minimum 3 customers)

Q3: \$500K pipeline development

Q4: \$200K closed revenue

Failure to achieve Q2 milestones will trigger spending review and potential reallocation.

Financial Controls

Bi-weekly spending reviews with Sales Finance. All regional partnerships require VP approval. Travel exceeding \$5K per trip requires CFO sign-off.

Regional P&L ownership transfers to local VPs effective Q3 2025.

Approved by: CEO, CFO, Executive Committee

Meeting Date: January 18, 2025
